

COMMUNICATION RELEASE

Bogotá D.C., June 27, 2019. In relation to the publications made by the newspaper El Tiempo on June 12 and 26, 2019, entitled "Portugueses, the only foreigners interested in Electricaribe" and "Electricaribe: the 6 companies that bid to buy it were accepted", according to which it is communicated that Grupo Energía Bogotá S.A. ESP (GEB), was among the *possible entities interested in making an offer to the Government for the distribution of energy in the Atlantic coast*, it is clarified that the GEB is not prequalified, and neither did it submit any documentation to the Superintendence of Residential Public Utilities for prequalification in the process to sell the shares of Electrificadora del Caribe S.A. E.S.P. ("Electricaribe"), since it is not, nor has it been interested in participating individually for the shares of Electricaribe.
