

## **Grupo Energia de Bogota was listed on the Dow Jones Sustainability Index for the fifth consecutive year.**

- Grupo Energia de Bogota ranks among the best companies in the sector thanks to its performance in sustainability of the gas transport business, through its subsidiary TGI.
- The Dow Jones is the most recognized sustainability index on a global scale and analyzes leading companies' performance on social, environmental and economical issues.
- Our environmental management for natural gas transport scored 100 points.

**Bogota D.C., September 9, 2016** Grupo Energia de Bogota (GEB) has been listed on the Dow Jones Sustainability Index (DJSI) for the fifth consecutive year, in the emerging markets category, specifically for its activities in the Natural Gas sector.

The Dow Jones Sustainability Index is the most recognized sustainability index on a global scale and it marks a reference point for those investors who integrate sustainability management within their investment portfolios. Additionally, it offers an effective engagement platform for companies that want to adopt the best practices in sustainability.

GEB stood out in areas such as environmental management with 100 points. Likewise, the Company's codes of ethics and conduct achieved 98 units, thanks to upright and responsible processes. The report positions the Group above average for the sector's industries with a general score of 73.

By means of Empresa de Energia de Bogota, GEB was first included on this index in 2012 and has managed to remain thanks to its Sustainability Corporate Policy and its efforts and initiatives for the benefit of all its stakeholders.

### **About Grupo de Energia de Bogota**

*The Grupo Energia de Bogota is a multinational leader in the energy and gas sector, with its main headquarters in Bogota. As a Corporate Group, it generates value for its shareholders and stakeholders through the sustainable and profitable management of its business, which contemplates shareholding in companies of the energy chain from the generation, transmission, distribution and commercialization of electricity, as well as the transport and distribution of natural gas. The Group contributes to the development of the countries where it operates: Colombia, Peru, Guatemala and Brazil, and leads projects that make an impact on the productivity and competitiveness of territories to support the growing demand of electricity and natural gas in an efficient and responsible manner.*
