

For the fifth consecutive year, Grupo Energía de Bogotá receives IR Recognition thanks to high standards on disclosure of information as an issuer of securities

- The Colombian Stock Market grants the IR Recognition for Issuers to listed companies that adopt best practices on disclosure of information and Relations with Investors

Bogota DC, October 5, 2018. For the fifth consecutive year, the Colombian Stock Market (BVC, in Spanish) has granted Grupo Energía de Bogotá the IR Recognition, thus acknowledging GEB's effort and commitment to timely and sufficient disclosure of information to the market, which guarantees the development and implementation of the best practices on Corporate Governance and Relations with Investors.

The IR Recognition is awarded to companies listed in the stock market that offer communication channels to respond to investors' inquiries (in both English and Spanish), disclose additional information other than commonly required information, guarantee that the information posted on their website is up to date, quarterly publish financial statements (balance sheet and income statement) with consolidated figures and hold quarterly meetings to disclose their financial results.

"This recognition fills us with great pride and attests to our great commitment towards our shareholders, which motivates us to continue working on the adoption of best practices regarding transparency and Corporate Governance", stated Astrid Álvarez, CEO of Grupo Energía de Bogotá.

For the Group, this distinction comes as a result of a continuous work focused on complying with the highest Corporate Governance standards through an objective, clear and verifiable management.
