

## Grupo Energía de Bogotá Committed to Transparency

- *Grupo Energía de Bogotá has an anti-fraud and anti-corruption policy aligned with the universal principles of the United Nations Global Compact.*

**Bogotá D.C., April 18<sup>th</sup>, 2017.** The companies belonging to Grupo Energía de Bogotá (GEB) develop actions against fraud and corruption and promote transparency in their administrative management and encourage the commitment of their managers and employees through their corporate policies and code of ethics.

The Anti-Fraud and Anti-Corruption Policy from Grupo Energía de Bogotá joins the other corporate policies from the Group, in its interest to align strategies and operations with the universally accepted principles of the United Nations Global Compact, especially the anti-corruption principle which aims to promote and strengthen measures to prevent and combat corruption.

To achieve this purpose, the GEB built and published its Anti-Corruption and Citizen Attention Plan (PAAC) in 2017, following the norms that regulate it and taking into account the recommendations presented at the work table convened by the District Monitoring.

*“Being a Business Group, for us it is essential to reaffirm our commitment to transparency and the fight against corruption in all our processes, since one of our main objectives is to strengthen the Corporate Governance that allows us to implement better practices and mechanisms of self-regulation through which business ethics are promoted”,* stated Astrid Álvarez, president of the Grupo Energía de Bogotá.

Moreover, as part of its commitment to transparency and zero tolerance of corruption, in 2016 the Empresa de Energía de Bogotá (EEB) ratified its adherence to the "Collective Action on Ethics in the Energy Sector", a self-regulatory initiative that promotes the adoption of ethical standards from the participating companies, led by XM and the National Council of Operations (CNO).

### **About Grupo Energía Bogotá**

Grupo Energía de Bogotá (GEB), led by Empresa Energía de Bogotá, is a joint stock company listed in the Stock Exchange Market of Colombia, which main corporate purpose is the generation, transmission, distribution and commercialization of energy, gas and liquid fuels in all of their forms.

Nowadays, Grupo Energía de Bogotá is the main Multi-Latin electric energy and natural gas company of the region with presence in Colombia, Perú, Guatemala and Brazil, and acting as a “strategic connector”, focused on three Business Units.

- Urban Energy Solutions, this unit focuses on developing and operating the infrastructure required to meet the electric power and natural gas demand in large cities;
- Interconnection for Market Development, this unit is responsible for connecting power generation sources with large consumption centers and large users; and
- Low Emission Generation, this focuses on seeking new opportunities in renewable energies in countries where the energy matrix is transitioning to this sustainable and low-emission generation source.
