

EMPRESA DE ENERGÍA DE BOGOTÁ S.A. E.S.P. RATIFIED ITS POSITION AS THE ENERGY SECTOR COMPANY WITH THE BEST PERFORMANCE IN THE DOW JONES SUSTAINABILITY INDEX

Bogotá, D.C., September 15, 2017. For the sixth year in a row, Empresa de Energía de Bogotá S.A. E.S.P (EEB) has been ratified as one of Colombia's listed companies with the best performance in sustainability management.

According to the Dow Jones Sustainability Index, EEB stands out in the emerging markets category in the light of its world-class good practices in labor indicators, biodiversity and environmental management. The company also was acknowledged for its code of conduct, risk management policy, Corporate Social Responsibility practices, and its relation with stakeholders.

EEB's score was higher than 89% of the sector companies included in the index worldwide.

The Dow Jones is the most internationally renowned sustainability index and is intended to analyze the performance of leading companies around the world in social, environmental, and economic matters. It was created in 1999 with the purpose of recognizing companies with high standards in each of the aforesaid areas, hence the importance of such a recognition. Only 9 Colombian companies were listed in this index in 2017.

According to Astrid Álvarez, President of Grupo Energía de Bogotá, being listed again in the Dow Jones sustainability index "is a token of the very positive impacts of our corporate strategy and the opportunity to keep on building trust with stakeholders in terms of legitimacy, transparency and attractive and sustainable investment".

EEB and all of the companies that belong to Grupo Energía de Bogotá (GEB) are firm in its commitment to generate shared value with stakeholders and in all of the areas where the company operates as a strategic partner for sustainable development.
