

Bogotá, October 18, 2018. In relation to the information request made by the Superintendency of Finance of Colombia on October 17, 2018, with filing No. 2018137102-000-000 pursuant to which it requires to expand the relevant information published on October 12, 2018, Grupo Energía Bogotá informs the following:

In light of the specific debates around the Investment Framework Agreements subscribed with Enel Americas, in relation to the companies Emgesa and Codensa, it has been decided to submit the unsettled conflicts between the parties before an arbitration tribunal, a procedure that was agreed by the parties to resolve differences among shareholders.

As has been informed by several media outlets, the main controversies between the parties are related to the breach of the Investment Framework Agreements regarding the percentage for the distribution of dividends, in the development of business in new technology and intellectual property matters.
