

RELEVANT INFORMATION

Bogotá D.C., August 31, 2020. By Resolution No. 1656 of August 27, 2020, the General Directorate of Public Credit and National Treasury of the Ministry of Finance and Public Credit authorized Grupo Energía Bogotá S.A. E.S.P. to enter into an external public debt management operation, consisting of an interest rate risk hedge, Interest Rate Swap for the sum of up to USD\$300.000.000 on the interest payment of the loan granted by Davivienda with maturity in 2032.

This operation does not increase net indebtedness for GEB and contributes to improve the debt profile.
