7	Employee with suspected symptoms of COVID according to the survey	No	No	Yes	No
Gloves	Taking into account physical distancing, the main recommendation is hand washing and sanitization with alcoholic gel at a minimum of 60%, in cases where these two measures are not possible, disposable gloves should be used, and also if you are travelling by public transport, gloves should be used				
Face masks	N95 mask or cloth mask only if disposable surgical masks are not available: and reinforce physical distancing				
Biosafety glasses	Physical distancing prevents exposure and if the worker DOES NOT touch his face with dirty hands				
Visor	only if instructed to use for the safety area
