About Grupo Energía de Bogotá

Grupo Energía de Bogotá is the leading corporation in the Colombian power sector. Through EEB it transports electricity to the most significant markets in terms of demand and size in the country, in addition to controlling the largest natural gas carrier in Colombia, TGI S.A. In Peru, its company CONTUGAS has a 30-year concession for the transportation and distribution of natural gas in the Ica Department, while CALIDDA is in charge of natural gas distribution in Lima and Callao. In that same country, together with ISA, it holds stocks in REP S.A. and TRANSMANTARO S.A., which operate 63% of the electricity transmission system in Peru. In 2010, it established TRECESA - Transportadora de Centroamérica S.A.- that is building the most important infrastructure Project in Guatemala and will render electricity transmission services as of 2013. Furthermore, it holds an investment portfolio in the most important companies in the electric power sector, in which the following stand out, CODENSA S.A., EMGESA S.A., GAS NATURAL S.A., la Empresa de Energía de Cundinamarca - EEC and Electrificadora del Meta, EMSA and to a lesser extent ISA and ISAGEN. As of 2013, the Group renders advisory and engineering services in Guatemala and Peru through its affiliates EEB Ingeniería y Servicios.
